**columbia basin
environmental education network**

CONSTITUTION

- 1 The name of the society is the Columbia Basin Environmental Education Network, hereafter referred to as the “Network”.

- 2 The purpose of the Network is:
 - To organize and participate in environmental projects designed to preserve and protect flora, fauna, rivers and other bodies of water;
 - To increase the skills and knowledge of environmental educators, and to educate and increase the public’s understanding of the environment and its importance, by offering courses, seminars, meetings, conferences and bursaries, and by collecting and disseminating information on the environment; and
 - To undertake activities incidental and ancillary to the attainment of the above charitable purposes.
